

CEF Scholarship Information

In addition to the grants your local foundation provides, we also have a number of national scholarships that are available thanks to the generous support from some of our corporate, philanthropic and education partners. Your applicants still need to be eligible for a CEF grant and apply through their local foundation. If they meet the additional criteria, please indicate on the application form if you would like an applicant to also be considered for a national scholarship.

The following scholarships are available for students studying in 2018

NATIONAL SCHOLARSHIPS

Eureka Scholarship

Details to follow

ADDITIONAL FUNDING

Throughout the year your committee may receive additional funding from various generous donors who have been specific in where they wish their money to go. While this funding has been secured by national office, these monies are to be administered at the committee level and awarded as scholarships. We ask that you monitor the recipients of these scholarships closely and follow their progress with mid-year and end of year reporting. These reports should then be forwarded to the national office so that we can provide feedback on the great work being done. Should you receive extra funding from donors, we would like you to recognise their generosity through your media platforms.

Thank you to South Eastern Livestock Exchange (SELX), The Snow Foundation and The Loder Foundation who have already kindly committed scholarships for 2018.
