

## Your Data, your impact

When you are applying for grants or talking to local businesses or community members about supporting your work, being able to demonstrate what you do and how it helps rural and regional youth. We know that what you do makes a difference. We see and hear it every day from the students you support, so it is really important for us to help make others understand the importance of what you do. People still require hard and fast facts before parting with their hard-earned money - they know their contribution will make a difference.

As a result of all the technology change, updates and advancements made at national office, we now have this information available, and accurate, when you need it. We can provide you with the entire grants history for your local foundation – who, where, when and how much.

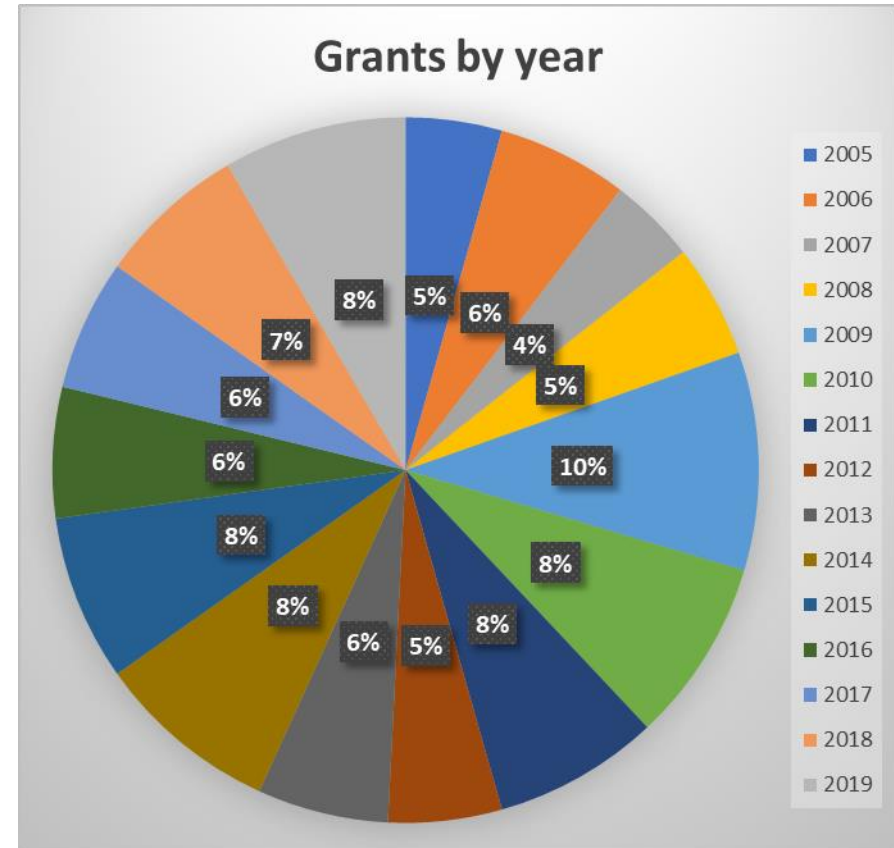

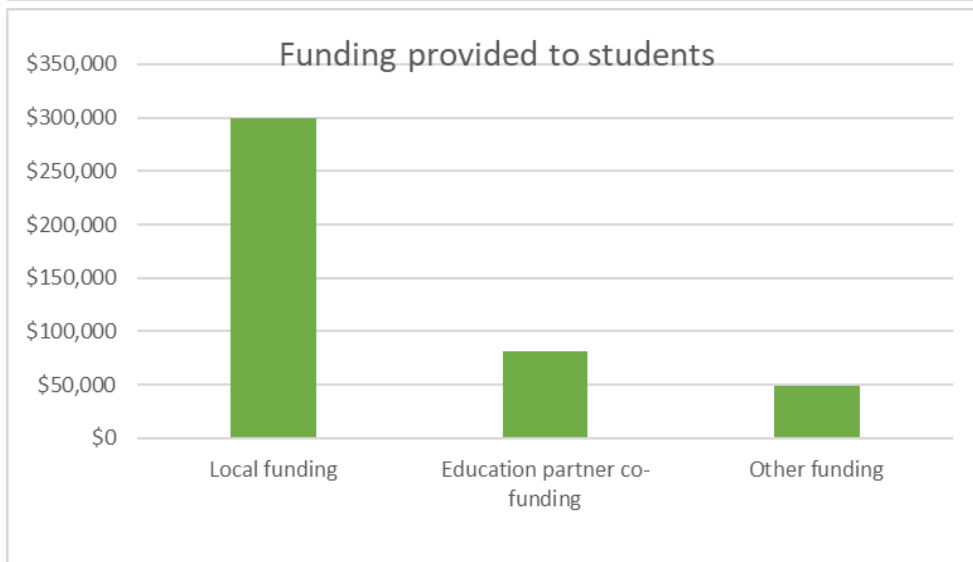

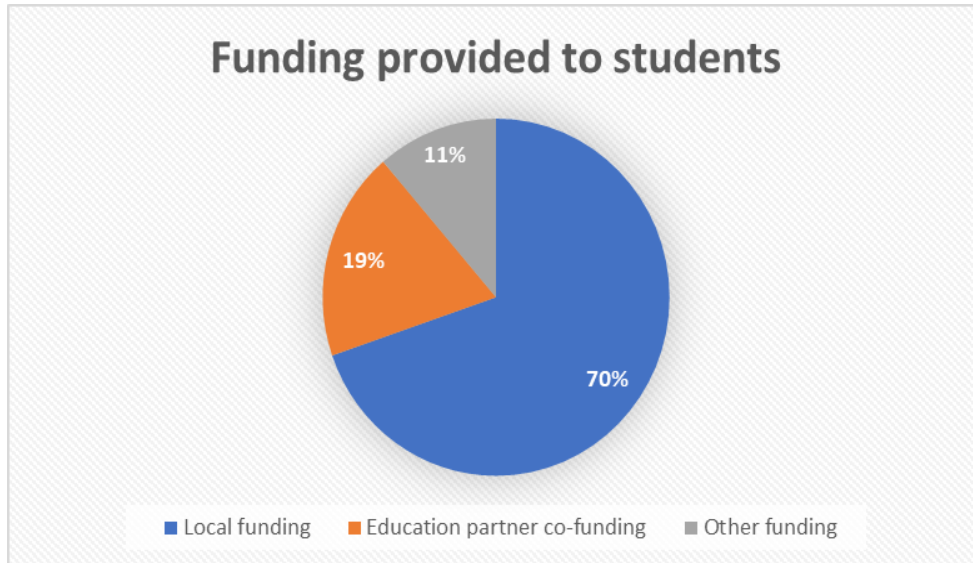

We can provide you with a spreadsheet with this information that you can use as you need, and we can provide you with some great graphs and tables if a visual approach works better for you.

For more information, or to request this information, simply contact national office for a chat.

### Example of Spreadsheet format

Contact: First Name	Contact: Last Name	Year of Study	Course Undertaken	Facility	Education or Vocation Type	Local Committee Grant	Co-funding via CEF	Direct Co-funding	Other funding	Committee	Year
