# Career Interest Explorer Activity Sheet

**Activity:** Go online to find out the strength of your career interests. We will use the [Career Interest Explorer](#) quiz on the AAPathways website. This activity will take about 15 - 20 minutes.

## The steps:

1. You will be asked a series of questions about the **types of work** you are interested in doing.

You can expand the list of questions for each work type by clicking **show all**.

Think about your interests, then for each statement select the response that best matches your level of interest.

Work Type: Analytic & Scientific

Work out solutions to problems through theories and ideas, and by investigation and experimentation.

Working with drawings and specifications

Not interested   Not very interested   Neutral   Quite interested   Very interested

show all

You can expand the questions by clicking here

2. For each of the questions, click the tile that matches how interested you are in that **type of work**.

Working to set goals and deadlines

Not interested   Not very interested   Neutral   Quite interested   Very interested

Using facts and figures

Not interested   Not very interested   Neutral   Quite interested   Very interested

Working with data

Not interested   Not very interested   Neutral   Quite interested   Very interested

**Please note:** If you miss a question, you won't be able to click through to the next set of questions. Go back to make sure you have answered everything.

Write down your top **3 Work Types**

1.  

---

2.  

---

3.  

---

3. It is advisable that you keep a record of your results, input your email and click the button to receive a copy.

Want to keep a copy of the information?

4. If you made a mistake in the quiz or want to redo it, you can do so by clicking **Restart the Explorer** at the bottom of the page.

5. If you want to find out more about the **Industries** related to each **Work Type**, click on **Browse Industries** then click the tile for the **Industry** you want to look at.
6. To find out about occupations in these **Work Types** take a look at the **Work Type Explorer Worksheets**. Also have a look at the **Job & Training Description Search Worksheets** for other ways to find Australian Apprenticeships occupation information.

Your interests may change in the future as you find out more about different industries and occupations. If so, it can be worth re-doing the Career Interest Explorer to check on the results.

## General Work Type Explorer Activity Sheet

- Activity:**
- > This activity will focus on exploring any work type to find apprenticeships and traineeships.
  - > This activity will take around 15 to 20 minutes.
  - > You can repeat the steps to find information on other Work Types, or in different Industry Groups or Areas of Interest.

### The 7 Work Types

#### Analytic & Scientific

Work out solutions to problems through theories and ideas, and by investigation and experimentation

#### Creative & Artistic

Express yourself and your ideas through your work

#### Helping & Advising

Help people, often through advising, teaching, guiding or treating them

#### Organising & Clerical

Occupations that gather facts and figures, and recording and interpreting them

#### Nature & Recreation

Many occupations involve working outdoors and are active and physical

#### Persuading & Service

Selling, or promoting ideas or a point of view, often industries involving people

#### Practical & Manual

Working with a lot of tools and equipment, and their hands, to make things

If you aren't sure which **Work Type** is for you, take the **Career Interest Explorer** quiz which can help you identify how strong your interests are across the 7 Work Types.

Another way to explore Australian Apprenticeship career options is to look at the **Job & Training Descriptions (JTD)**, which can be found on the home page. Take a look at the **JTD Activity Sheets** for more information on how to use this.

## Follow the steps and record your answers below:

1. Open the **Work Type Explorer** from the Australian Apprenticeships Pathways website at [aapathways.com.au/explorer](http://aapathways.com.au/explorer).
2. If prompted, select a **Persona** and **State**.
3. Select the **Work Type** you are interested in.
4. Select an **Industry Group** that interests you. Record the title of the industry group you have chosen:

--

5. From the **Areas of Interest** listed, record up to four that match your interests:

6. Select an Area of Interest to see a **list of occupations** that are included in this area. Record up to five occupation titles that interest you:

7. Occupation titles are listed under the course level that you would do as part of that apprenticeship or traineeship. Click on an occupation title to view its sample **Job and Training Description**. This describes a typical apprenticeship or traineeship in that area.

At the top of the sample Job and Training Description page you will see the occupation title, the course level and course name. Below this you will find a summary of training that you could do as part of the apprenticeship or traineeship.

8. The **Job Pathways Chart** on this page shows other occupations related to the one you are currently looking at. You can click on these to see the sample Job and Training Descriptions and related career pathways.

Looking at the **Job Pathways**, record another occupation you could get through an apprenticeship or traineeship in this area:

--

## Analytic & Scientific Activity Sheet

If you like working out solutions to problems through theories and ideas, and by investigation and experimentation, then this may be a career direction to consider. Related occupations are often in the scientific and technical areas, but also some industries covering 'social' fields. Some of the main skills required by these industries are observing, researching, analysing and interpreting results. Australian Apprenticeships training in this area develops your thinking and planning capabilities, as well as the practical skills to carry out a plan.

Many occupations are in science but can include social fields.

Skills include computing, maths, logic and attention to detail.

You might learn how to carry out plans and projects.

- Activity:**
- > This activity will focus on using the Analytic and Scientific work type to find apprenticeships and traineeships.
  - > This activity will take around 15 to 20 minutes.
  - > You can repeat the steps to find information on other Work Types, or in different Industry Groups or Areas of Interest.

## The Steps

1. Open the **Work Type Explorer** from the Australian Apprenticeships Pathways website at [aapathways.com.au/explorer](http://aapathways.com.au/explorer).
2. If prompted, select a **Persona** and **State**.
3. Select the **Analytic and Scientific** work type.
4. Select an **Industry Group** that interests you. Record the title of the industry group you have chosen:

--

5. From the **Areas of Interest** listed, record up to four that match your interests:

6. Select an Area of Interest to see a **list of occupations** that are included in this area. Record up to five occupation titles that interest you:

7. Occupation titles are listed under the course level that you would do as part of that apprenticeship or traineeship. Click on an occupation title to view its sample **Job and Training Description**. This describes a typical apprenticeship or traineeship in that area.

At the top of the sample Job and Training Description page you will see the occupation title, the course level and course name. Below this you will find a summary of training that you could do as part of the apprenticeship or traineeship.

8. The **Job Pathways Chart** on this page shows other occupations related to the one you are currently looking at. You can click on these to see the sample Job and Training Descriptions and related career pathways.

Looking at the **Job Pathways**, record another occupation you could get through an apprenticeship or traineeship in this area:

--

## Creative & Artistic Activity Sheet

These industries could suit you if you like to express yourself and your ideas through your work, often using your imagination and flair for communication or presentation. People in this area often have an appreciation of design, style, form and beauty. Training through Australian Apprenticeships in these fields helps develop your skills and abilities to perform and produce your creative best.

Occupations in this area suit people who like to express themselves.

Skills are needed in things like design, music, art or writing.

You should have an active imagination and like style, design and beauty.

- Activity:**
- > This activity will focus on using the Creative and Artistic work type to find apprenticeships and traineeships.
  - > This activity will take around 15 to 20 minutes.
  - > You can repeat the steps to find information on other Work Types, or in different Industry Groups or Areas of Interest.

## The Steps

1. Open the **Work Type Explorer** from the Australian Apprenticeships Pathways website at [aapathways.com.au/explorer](http://aapathways.com.au/explorer).
2. If prompted, select a **Persona** and **State**.
3. Select the **Creative and Artistic** work type.
4. Select an **Industry Group** that interests you. Record the title of the industry group you have chosen:

--

5. From the **Areas of Interest** listed, record up to four that match your interests:

6. Select an Area of Interest to see a **list of occupations** that are included in this area. Record up to five occupation titles that interest you:

7. Occupation titles are listed under the course level that you would do as part of that apprenticeship or traineeship. Click on an occupation title to view its sample **Job and Training Description**. This describes a typical apprenticeship or traineeship in that area.

At the top of the sample Job and Training Description page you will see the occupation title, the course level and course name. Below this you will find a summary of training that you could do as part of the apprenticeship or traineeship.

8. The **Job Pathways Chart** on this page shows other occupations related to the one you are currently looking at. You can click on these to see the sample Job and Training Descriptions and related career pathways.

Looking at the **Job Pathways**, record another occupation you could get through an apprenticeship or traineeship in this area:

--

## Helping & Advising Activity Sheet

Careers in this area involve informing or helping people, often through advising, teaching, guiding or treating them. These industries revolve around people so you'll need to have an interest in their welfare, and an understanding and concern for others. Skills needed include being a good listener and communicator, the ability to provide advice, and being able to get along with people in different situations. Australian Apprenticeships training in these areas develops practical skills and also orientates people to working within a specific industry's processes and procedures.

Occupations in this area usually involve helping people.

Skills needed include listening and communication.

You might work with people who have medical conditions.

- Activity:**
- > This activity will focus on using the Helping and Advising work type to find apprenticeships and traineeships.
  - > This activity will take around 15 to 20 minutes.
  - > You can repeat the steps to find information on other Work Types, or in different Industry Groups or Areas of Interest.

## The Steps

1. Open the **Work Type Explorer** from the Australian Apprenticeships Pathways website at [aapathways.com.au/explorer](http://aapathways.com.au/explorer).
2. If prompted, select a **Persona** and **State**.
3. Select the **Helping and Advising** work type.
4. Select an **Industry Group** that interests you. Record the title of the industry group you have chosen:

--

5. From the **Areas of Interest** listed, record up to four that match your interests:

6. Select an Area of Interest to see a **list of occupations** that are included in this area. Record up to five occupation titles that interest you:

7. Occupation titles are listed under the course level that you would do as part of that apprenticeship or traineeship. Click on an occupation title to view its sample **Job and Training Description**. This describes a typical apprenticeship or traineeship in that area.

At the top of the sample Job and Training Description page you will see the occupation title, the course level and course name. Below this you will find a summary of training that you could do as part of the apprenticeship or traineeship.

8. The **Job Pathways Chart** on this page shows other occupations related to the one you are currently looking at. You can click on these to see the sample Job and Training Descriptions and related career pathways.

Looking at the **Job Pathways**, record another occupation you could get through an apprenticeship or traineeship in this area:

--

## Nature & Recreation Activity Sheet

If you like the natural environment and the physical world these industries could interest you. Some industries involve raising crops or livestock, gardening, land conservation, or handling animals. Others focus on the sport, recreation or leisure areas. Many occupations involve working outdoors and are active and physical. Training through Australian Apprenticeships will develop your interests and practical skills.

Occupations can be active and physically demanding.

Skills needed include caring for plants, animals and the environment.

You might work in the natural environment or in sports and recreation.

- Activity:**
- > This activity will focus on using the Nature and Recreation work type to find apprenticeships and traineeships.
  - > This activity will take around 15 to 20 minutes.
  - > You can repeat the steps to find information on other Work Types, or in different Industry Groups or Areas of Interest.

## The Steps

1. Open the **Work Type Explorer** from the Australian Apprenticeships Pathways website at [aapathways.com.au/explorer](http://aapathways.com.au/explorer).
2. If prompted, select a **Persona** and **State**.
3. Select the **Nature and Recreation** work type.
4. Select an **Industry Group** that interests you. Record the title of the industry group you have chosen:

--

5. From the **Areas of Interest** listed, record up to four that match your interests:

6. Select an Area of Interest to see a **list of occupations** that are included in this area. Record up to five occupation titles that interest you:

7. Occupation titles are listed under the course level that you would do as part of that apprenticeship or traineeship. Click on an occupation title to view its sample **Job and Training Description**. This describes a typical apprenticeship or traineeship in that area.

At the top of the sample Job and Training Description page you will see the occupation title, the course level and course name. Below this you will find a summary of training that you could do as part of the apprenticeship or traineeship.

8. The **Job Pathways Chart** on this page shows other occupations related to the one you are currently looking at. You can click on these to see the sample Job and Training Descriptions and related career pathways.

Looking at the **Job Pathways**, record another occupation you could get through an apprenticeship or traineeship in this area:

--

## Organising & Clerical Activity Sheet

In these occupations you will be gathering facts and figures, and recording and interpreting them to keep a business moving. This may be part of a customer service, or helping to administer a company's policies, activities, reports or accounts. People in these roles enjoy working with detail and data. Being organised is an important skill that is developed by Australian Apprenticeships training along with the skills relevant to a specific occupation.

Occupations can include working with facts and figures or in customer service.

Skills include working with computers, phones and communications.

You might work in a structured environment with strict deadlines.

- Activity:**
- > This activity will focus on using the Organising and Clerical work type to find apprenticeships and traineeships.
  - > This activity will take around 15 to 20 minutes.
  - > You can repeat the steps to find information on other Work Types, or in different Industry Groups or Areas of Interest.

## The Steps

1. Open the **Work Type Explorer** from the Australian Apprenticeships Pathways website at [aapathways.com.au/explorer](http://aapathways.com.au/explorer).
2. If prompted, select a **Persona** and **State**.
3. Select the **Organising and Clerical** work type.
4. Select an **Industry Group** that interests you. Record the title of the industry group you have chosen:

--

5. From the **Areas of Interest** listed, record up to four that match your interests:

6. Select an Area of Interest to see a **list of occupations** that are included in this area. Record up to five occupation titles that interest you:

7. Occupation titles are listed under the course level that you would do as part of that apprenticeship or traineeship. Click on an occupation title to view its sample **Job and Training Description**. This describes a typical apprenticeship or traineeship in that area.

At the top of the sample Job and Training Description page you will see the occupation title, the course level and course name. Below this you will find a summary of training that you could do as part of the apprenticeship or traineeship.

8. The **Job Pathways Chart** on this page shows other occupations related to the one you are currently looking at. You can click on these to see the sample Job and Training Descriptions and related career pathways.

Looking at the **Job Pathways**, record another occupation you could get through an apprenticeship or traineeship in this area:

--

## Persuading & Service Activity Sheet

People working in these industries like selling, or promoting ideas or a point of view. Occupations usually focus on people so you need to have good communication skills, enjoy customer service and interactions involving influence, motivation or negotiation. Australian Apprenticeships training combines development of broad selling and influencing skills and the practical skills used every day in the workplace.

Occupations can include selling things, promoting ideas, or customer service.

Skills needed include listening and communication.

You might work with a variety of different people.

- Activity:**
- > This activity will focus on using the Persuading and Service work type to find apprenticeships and traineeships.
  - > This activity will take around 15 to 20 minutes.
  - > You can repeat the steps to find information on other Work Types, or in different Industry Groups or Areas of Interest.

## The Steps

1. Open the **Work Type Explorer** from the Australian Apprenticeships Pathways website at [aapathways.com.au/explorer](http://aapathways.com.au/explorer).
2. If prompted, select a **Persona** and **State**.
3. Select the **Persuading and Service** work type.
4. Select an **Industry Group** that interests you. Record the title of the industry group you have chosen:

--

5. From the **Areas of Interest** listed, record up to four that match your interests:

6. Select an Area of Interest to see a **list of occupations** that are included in this area. Record up to five occupation titles that interest you:

7. Occupation titles are listed under the course level that you would do as part of that apprenticeship or traineeship. Click on an occupation title to view its sample **Job and Training Description**. This describes a typical apprenticeship or traineeship in that area.

At the top of the sample Job and Training Description page you will see the occupation title, the course level and course name. Below this you will find a summary of training that you could do as part of the apprenticeship or traineeship.

8. The **Job Pathways Chart** on this page shows other occupations related to the one you are currently looking at. You can click on these to see the sample Job and Training Descriptions and related career pathways.

Looking at the **Job Pathways**, record another occupation you could get through an apprenticeship or traineeship in this area:

--

## Practical & Manual Activity Sheet

Industries with this outlook need people who like working a lot with tools and equipment, and their hands, to make things. Occupation tasks can also involve installation and maintenance. The work can be physical and is usually quite practical. Training through Australian Apprenticeships helps build your understanding of how things work and fit together. It will also develop your skills in using equipment to get the job done.

Occupations can be physically demanding. You may work with tools and equipment.

Skills needed include being accurate, patient and follow instructions.

You might do things like making and mending things or installation.

- Activity:**
- > This activity will focus on using the Practical and Manual work type to find apprenticeships and traineeships.
  - > This activity will take around 15 to 20 minutes.
  - > You can repeat the steps to find information on other Work Types, or in different Industry Groups or Areas of Interest.

## The Steps

1. Open the **Work Type Explorer** from the Australian Apprenticeships Pathways website at [aapathways.com.au/explorer](http://aapathways.com.au/explorer).
2. If prompted, select a **Persona** and **State**.
3. Select the **Practical and Manual** work type.
4. Select an **Industry Group** that interests you. Record the title of the industry group you have chosen:

--

5. From the **Areas of Interest** listed, record up to four that match your interests:

6. Select an Area of Interest to see a **list of occupations** that are included in this area. Record up to five occupation titles that interest you:

7. Occupation titles are listed under the course level that you would do as part of that apprenticeship or traineeship. Click on an occupation title to view its sample **Job and Training Description**. This describes a typical apprenticeship or traineeship in that area.

At the top of the sample Job and Training Description page you will see the occupation title, the course level and course name. Below this you will find a summary of training that you could do as part of the apprenticeship or traineeship.

8. The **Job Pathways Chart** on this page shows other occupations related to the one you are currently looking at. You can click on these to see the sample Job and Training Descriptions and related career pathways.

Looking at the **Job Pathways**, record another occupation you could get through an apprenticeship or traineeship in this area:

--

## Generic Answer Sheet

Follow the steps and record your answers below:

1. Open the **Work Type Explorer** from the Australian Apprenticeships Pathways website at [aapathways.com.au/explorer](http://aapathways.com.au/explorer).
2. If prompted, select a **Persona** and **State**.
3. Select the **Work Type** you are interested in.
4. Select an **Industry Group** that interests you. Record the title of the industry group you have chosen:

--

5. From the **Areas of Interest** listed, record up to four that match your interests:

6. Select an Area of Interest to see a **list of occupations** that are included in this area. Record up to five occupation titles that interest you:

7. Occupation titles are listed under the course level that you would do as part of that apprenticeship or traineeship. Click on an occupation title to view its sample **Job and Training Description**. This describes a typical apprenticeship or traineeship in that area.

8. The **Job Pathways Chart** on this page shows other occupations related to the one you are currently looking at. You can click on these to see the sample Job and Training Descriptions and related career pathways.

Looking at the **Job Pathways**, record another occupation you could get through an apprenticeship or traineeship in this area:

--

# Job & Training Description Search Activity Sheet

**Activity:** Find occupations and training that you might be interested in doing as an apprenticeship or traineeship, an Australian school-based apprenticeship (ASbA) or pre-apprenticeship.

You will be using the [Job & Training Descriptions](#) on the AAPathways website. Each activity will take about 15 minutes. New users may need to select a **Persona** and **State**.

## Key Information

Once selecting a Persona and State, you will be presented with 3 options which are Australian Apprenticeships & Traineeships, Australia School-Based Apprenticeships and Pre-Apprenticeships.

This activity sheet will take you through the **Australian Apprenticeships and Traineeships** and **Australian School-Based Apprenticeships** tile options. There is a separate **Pre-Apprenticeships Activity**. You can find it in [AAPathways Bag of Tricks](#) under **Pre-Apprenticeships Activity Sheet**.

If you are looking at School-based apprenticeships or traineeships information, do the **Australian School-Based Apprenticeships** activity on the **third page** of this Activity Sheet.

**NOTE:**

You can navigate to your previous selections by clicking on the blue breadcrumbs on top of your page.

# Australian Apprenticeships & Traineeships

1. Select the **Australian Apprenticeships & Traineeships** tile

2. Select an **Industry Group** and **Area of Interest** which most interests you to see **Job & Training Descriptions** related to your selection.

Record your choice

**Industry Group:**

**Area of Interest:**

3. The **Job & Training Descriptions** are listed by certificate level. On the top right-hand side, you can see the number of results for your selection. How many results have been found based on your selection?

4. Hovering over the **information icon** next to your certificate level will show information about what is required and developed at that level.

What **certificate level** are you most interested in?

5. From your results, choose an **Occupation Title** from the list to go through to the **Job & Training Description**.

6. Once clicking on an occupation title, you will see the additional information such as the certificate level, qualification name and a Summary of Training that you could do as part of this apprenticeship or traineeship. The **Job Pathways Chart** on this page shows other occupations that are related to the one you are currently looking at.

What is another occupation that you could do in this **Job Pathway**?

7. The **Availability Information** shows the **Full Time Duration** of the apprenticeship or traineeship, the approval to be done as an apprenticeship or traineeship. **Part-time** and **school-based** availability and **commencements** of the occupation in each state.

Is your selection approved in your state?

# Australian School-based Apprenticeships

1. Select the **Australian School-based Apprenticeships** tile

2. Select an **Industry Group** and **Area of Interest** which most interests you to see **Job & Training Descriptions** related to your selection.

Record your choice

**Industry Group:**

**Area of Interest:**

3. The **Job & Training Descriptions** are listed by certificate level. On the top right-hand side, you can see the number of results for your selection. How many results have been found based on your selection?

4. Hovering over the **information icon** next to your certificate level will show information about what is required and developed at that level.

What **certificate level** are you most interested in?

5. From your results, choose an **Occupation Title** from the list to go through to the **Job & Training Description**.

6. Once clicking on an occupation title, you will see the additional information such as the certificate level, qualification name and a Summary of Training that you could do as part of this apprenticeship or traineeship. The **Job Pathways Chart** on this page shows other occupations that are related to the one you are currently looking at.

What is another occupation that you could do in this **Job Pathway**?

7. The **Availability Information** shows the **Full Time Duration** of the apprenticeship or traineeship, the approval to be done as an apprenticeship or traineeship. **Part-time** and **school-based** availability and **commencements** of the occupation in each state.

Is your selection approved as an Australian School-based Apprenticeship in your state?

## Pre-Apprenticeships Finder Activity Sheet

**Activity:** Find entry level training which can provide a pathway into the industry of your choice with the **Pre-Apprenticeships Finder**.

You will be using the [Job & Training Descriptions](#) on the AAPathways website. Each activity will take about 15 minutes. New users may need to select a **Persona** and **State**.

### Key Information

Once selecting a Persona and State, you will be presented with 3 options which are Australian Apprenticeships & Traineeships, Australia School-Based Apprenticeships and Pre-Apprenticeships.

This activity sheet will take you through the **Pre-Apprenticeships** tile option. There is a separate **Australian Apprenticeships & Traineeships** and **Australian School-Based Apprenticeships Activity**. You can find it in [AAPathways Bag of Tricks](#) under **Job & Training Description Activity Sheet**.

**NOTE:**

You can navigate to your previous selections by clicking on the blue breadcrumbs on top of your page.

## The Steps:

1. Select the **Pre-Apprenticeships** tile

2. You will have multiple ways to start your search, we start with searching for Pre-Apprenticeships by **industry Group**. A list of industry groups may populate based on your state selection.

Start your search by

Industry Group	Location	Service Provider
----------------	----------	------------------

How many Industry Groups are shown?

Please note that these Pre-Apprenticeships course uploads are managed by Service Providers and not AAPathways. **No Pre-Apprenticeships displayed** on our finder does not mean there isn't any Pre-Apprenticeships running at all. This is where we recommend that you click on the search option to find providers to contact directly and inquire about available Pre-Apprenticeships in your area.

3. If there are Industry Group selections available, select one that interest you most. Which Industry Group did you select?

4. Selecting an Industry Group will populate list of Pre-Apprenticeships related to your selection. You will see the Pre-Apprenticeship Title, Service Provider, Location, Start Date, Phone Number, and whether there is Employer Involvement. Write down the name of the pre-apprenticeship(s) you are interested in:

Upon selecting your Pre-Apprenticeship from the listing, you will be taken a Pre-Apprenticeship page which will show additional information such as **Pre-apprenticeship Description**, **Eligibility Requirements**, **Credit Transfer eligibility** and **Contact Information**. Click on the **Service Provider's Logo** to visit their page profile where you can find all their Pre-Apprenticeships offered.

Another way to search for Pre-Apprenticeships using our finder would be by **Location**. Enter your **Suburb** or **Postcode** to be shown a list of Pre-Apprenticeship available in your specified location. You can go back into the finder to find more Pre-Apprenticeships.
